Orientation on the elderly cheque for state pensioners

If the Danish pension you receive is an early pension, or if you do not live in an EU-country, in Norway, Iceland, Liechtenstein, Switzerland or Great Britain, please disregard this orientation.

You received the elderly cheque in 2024

If you have received the elderly cheque from Udbetaling Danmark, International Pension in 2024 do not do anything. The elderly cheque will be paid to you together with your pension for the month of January 2025 if you still qualify for it.

However, you should be aware if there has been a change in your civil status in 2024, for example, if your partner/spouse has passed away. If that is the case, you need to fill in the form.

You did not receive the elderly cheque in 2024

If you have not received the elderly cheque in 2024, you can apply for it.

What is an elderly cheque?

An elderly cheque is a supplementary pension allowance to which you may be entitled if:

- you were entitled to a Danish state pension on 1 January 2025
- you live in an EU-country, in Norway, Iceland, Liechtenstein, Switzerland or Great Britain.

What to do?

If you want to apply for the elderly cheque fill in the application form and send it to:

Udbetaling Danmark
International Pension
Kongens Vænge 8
DK-3400 Hillerød

Your application must **come to hand not later than 31. July 2025**. If it comes to hand at a later date, there will be no investigation of your claim.

The elderly cheque is for the financially disadvantaged only

The elderly cheque is payable only to financially disadvantaged state pensioners. For our assessment of

your entitlement, both available assets and incomes are taken into consideration.

You do not qualify for any elderly cheque, if:

- the available fortune held by you and your spouse or cohabitee totals an amount of 103.100 DKK or above as of 1 January 2025, or if
- you are single and have an annual income above 95.800 DKK as of 1 January 2025, or if
- you are married or cohabiting and the annual incomes of the two of you total an amount above 192.000 DKK as of 1 January 2025.

What is the amount of the elderly cheque?

For 2025, the max amount of the cheque is 25.700 DKK. Its amount is subject to reduction for available assets and income. If the old age pension due to you is payable by a fraction, any elderly cheque due to you will be payable by the same fraction. Where the amount due is less than 200 DKK, no elderly cheque will be paid.

Under 'Deductions in deposits' you must enter:

- The amount intended to cover your living expenses for the rest of January.
- Any unspent amount from the additional financial aid that you might have received due to the extraordinary situation with high energy prices.

The amount of your living expenses is the income you received in December to cover your expenses in January. It could for example be your salary, pensions, etc.

You must state the total amount received. Then Udbetaling Danmark will take the amount into account when they calculate your assets per 1st of January.
